1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on July 28, 2004 has been entered.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

On page 1 of the specification, the language --now U.S. Patent 6,515,785,-- has been inserted after "filed April 22, 1999,".

4. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest a display apparatus comprising a light modulating layer; a light cavity providing light to the light modulating layer and reflecting incident light with a first degree of depolarization; and a diffusely reflecting polarizer disposed between the light modulating layer and the light cavity, wherein said polarizer diffusely reflects light of the second polarization with a second degree of depolarization greater than the first degree of depolarization to provide light of the first polarization and wherein at least a portion of the diffusely reflected light of the

Art Unit: 2872

first polarization is reflected by the light cavity without depolarization toward the diffusely reflecting polarizer for transmission therethrough, as recited in claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Receipt is acknowledged of the Information Disclosure Statement filed on July 28, 2004. U.S. Patent 5,940,211 has been lined through on the Information Disclosure Statement (PTO-1449), filed on July 28, 2004, because the above-mentioned reference has already been considered and made of record.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricky D. Shafer whose telephone number is (571) 272-2320. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
